Dear Rabbi Blumenkrantz:

Ingredient Information on Lilly Products for
Use Regarding Jewish Dietary Laws

This is in response to your letter requesting ingredient information on Lilly products.

We have not compiled a document which will present the ingredients formulated into each of our products. As you are aware, we have over four hundred items in our price list, so the compilation of such a document is not a simple task which can be accomplished on short notice.

With regrets, we must state that we are unable to provide the requested information, but certainly will be pleased to provide the information on selected items upon request.

Very truly yours,

ELI LILLY AND COMPANY
